Personal Statement

I am an established professional with skills in full-stack web-development, business strategy and management. My professional experiences include working in event-planning, with charities, with investors and most recently in founding a professional skills training business in Sierra Leone.

This breadth of experience, both as an employee and a business owner, has exposed me to a wide variety of challenges and problems which I have relished solving. I am looking forward to deploying my recent software engineering training by leveraging my experience and skills in a new, more technical environment.
